

Memorandum

Date: July 5, 2000

To: Ecosystem Roundtable

From: Wendy S. Halverson Martin

Subject: Yuba Tools

On May 17, 2000, the Ecosystem Roundtable recommended extending by an additional 45 days the time for reaching concurrence on a collaborative process to facilitate regional watershed planning in the Yuba Basin. The intent of this extension was to push the interested parties to commit to and begin the collaborative process this summer. A letter was sent to the affected parties on June 20, 2000 reminding them of the need to agree on this process (see attached). The following letter indicates that the principle parties have agreed to participate in a collaborative process to discuss flood control and watershed issues.
